

To the FCC,

I would really appreciate it if you would leave the Wisconsin No Call List alone. I want the law to remain as it is. I do not know of too many people who like being harrassed by telemarketers. I know in our home, we have really enjoyed the peace and quiet as well as the phone not ringing at all hours of the day and night only to find out it was a telemarketer. I would like to think you would put consumers rights above those of telemarketers. With the number of people who have signed up for the no call list in Wisconsin, I think we, the consumers, would not have to be e-mailing you, the FCC, to fight to keep our law the same. Please respect our rights. Thank you, Kathy Beranek
